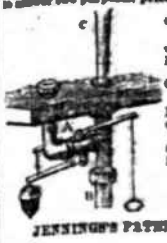
FIFTY PER CENT. SAVED

in Plumbers' Work by the use of
JENNINGS'S INDIA-RUBBER TUBE CLOSETS.

G. JENNINGS has much pleasure in submitting the following arrangement for Slate or other Cisterns, by which one pipe is made to answer two purposes, price 20s.



A Represents one of Jennings' self-closing Seats for common Closet Pans.

B The waste-pipe of the Cistern, which also acts as a service pipe to the Basin, when the Cock A is opened.

C Is the standing-waste in the Cistern.

JENNINGS'S Cocks, Closets, and Pumps are all warranted, and references of the highest order can be given.

The foregoing can be had through any plumber, or from the agent in all principal towns, or from the Patentee,

G. JENNINGS,
33, Great Charlotte-street,
Manchester-road.

JENNINGS'S PATENT SHOP SHUTTER SHOES

RENDER A SHUTTER BAR UNNECESSARY.

The SIMPLICITY and EFFICIENCY of these SHOES may be ordered of by their being in use in every thoroughfare throughout the metropolis.

They may be had through any ironmonger, or from the Patentee, as above.

STOCK and SON'S SOIL-PAN SERVICE-BOX.

The object of this contrivance is to facilitate the introduction of Sanitary Improvements into the dwellings of the working classes, by the adoption of such an arrangement of domestic soil-pan apparatus as will enable the constant supply system of water service to be made available for the removal of the refuse, by preventing the enormous waste of water incidental to the use of this description, to which water companies have so justly and so properly object. By the use of this service-box an ample supply of water is obtained, without the possibility of its being wasted by propping the valve, weighting the handle, or by other means. It is so constructed that so long as the discharge valve remains open, a further supply cannot enter the service-box from the main.—Drawings and descriptions may be obtained from STOCK and SON, manufacturers of plumbers' brasswork, gas-fittings, and church furniture, in iron and brass, Temple-street, Birmingham.

PRIZE MEDAL awarded to PEAKE'S TERRO-METALLIC TILES, PIPES, &c.

ILLUMINATED TRADE LISTS, containing much information useful for reference; also considered testimonials respecting a MATERIAL which, when well wrought, is probably superior to every other for drains or conduits, for risers, traps, valves, and every sort of work, for plain or chequered floors for paving and erections, of a strong and durable nature, also many other purposes, supplied on application by THOMAS PEAKE, Proprietor of Peake's "Terro-Metallic," No. 4 WHARF, CITY-ROAD BASIN, LONDON, and at THE TILERIES, TUNSTALL, STAFFORDSHIRE. The lists contain both prices by number, and approximate cost by measure. It is solicited that letters be prepaid, and state if Staffordshire or London prices are wanted. Specimens were at the GREAT EXHIBITION, Class 27, No. 139 (having been at first No. 111).

PATENT SCREW PIPE AND TILE MACHINE.

and GRANTING LICENCES for the USE of SAME.

* This Machine will make Pipes of any diameter, from the smallest drain pipe up to the largest main sewer, and combines the operations of pugging, screwing, and forming the pipe at the same time, by which a considerable saving of labour and expense is effected; and from the great and equal pressure employed, and the superior mode of manufacturing (in which the air is allowed to escape), Pipes are produced sounder, smoother, and superior in every respect to those formed by any other process.

THE MACHINE MAY BE SEEN IN OPERATION ON APPLICATION AT THE OFFICES, 10, CORNHILL, where every information as to terms, &c., may be obtained.

SUPERIOR GLAZED STONEWARE DRAIN PIPES,

invented and manufactured by
WILLIAM NORTHEN, UNION POTTERY, No. 14, VAUXHALL-WALK, LAMBETH.

W. NORTHEN begs to inform surveyors, contractors, builders, trade companies, &c., that he has patented a "superior" new patent machinery for making GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, ELBOWS, SYPHON-TRAPS, &c. &c. Amongst the many advantages of pipes made by this machinery over all others may be mentioned, that it insures perfect uniformity in form and size, both of pipe and socket, the due toning of a different and better construction than any others now in use, and the pipes and sockets being made by one process are secure from separations.

W. N. invites particular attention to the superior quality of the glaze used in his manufactures, which is equal to glass, and even better adapted to the drains in question. CLOSET PANS, with seals and flaps trapped, on improved inside white plans.—W. NORTHEN'S PIPES MAY BE INSPECTED AT THE FOLLOWING PLACES, WHERE ORDERS ARE RECEIVED:—

Martin and Wandby, Basinhall Wharf, Magpie's Park Basin.—J. C. Hilbrath, Crown and Horseshoe Wharf, No. 4, Upper Thames-street.—Long and Son, Richmond.—Charles Kingsbury's South Wharf, Paddington.—G. Ernest, Commercial Road Wharf, Hackney.—W. Parvis, Canal Bridge, Old Kent-road.—Millwood and Sumner's Wharf, Bermondsey Basin, and Grove Wharf, Hammersmith.—J. Corbet's Depot, Milman-street, Chelsea, and at the Pottery.
